

2009 Little  
Miami River  
Watershed  
Festival  
October 17, 2009  
11 AM - 4PM

The goal of the festival is to **raise awareness of water quality issues, watershed activities and conservation organizations functioning within the watershed.** We envision a fun, family oriented day in natural surroundings that help promote the beauty and value of the Little Miami River watershed. It will be a great opportunity to reach a large number of families with the message that **“Clean Water is a Clear Choice!”**

Last year more than 20 exhibitors, representing watershed interests and conservation groups presented educational displays, hands-on activities and large group events for over 500 outdoor enthusiasts of all ages.

Presentations included topics on water quality, water safety, flooding, fossils, pond and stream life, local plants, animals and fall foliage. The festival also included interpretative hikes, and a water journey game.

**Admission is free.** Children can earn a free T-shirt by visiting display booths and participating in various events.

**BADGES:** Scouts will be able to earn many different wilderness badges at the festival. Call us at 513.695.2542 for more information.
